## EXPERIENCE

Full Stack Developer Intern

Nachd IT

June – August 2025    Sousse,Tunisia

- Developed a robust admin dashboard using the Filament Laravel starter kit.
- Integrated and customized Filament plugins to build a dynamic form builder aligned with business logic.
- Implemented role-based access control and permission management for secure, scalable administration.
- Collaborated in a Scrum team, participating in sprints, code reviews, and feature planning.

Laravel    Filament    PHP    MySQL    Agile    Scrum

Full Stack Developer Intern

Designet Web Agency

July – August 2024    Nabeul, Tunisia

- Created a digital business card web application with QR code functionality.
- Built responsive and interactive frontend components using React.js connected to a Laravel backend.
- Implemented real-time updates, notifications, and secure API communication.
- Collaborated with designers and backend developers to ensure cohesive UI/UX and functional integration.

## PROJECTS

University Management Dashboard

- A full-stack application for automatically generating exam and surveillance schedules in academic settings. It includes an intelligent backend, an AI-powered planner, and a modern frontend for administration and teachers.

Spring Boot    RESTful APIs    React  
Tailwind CSS    Python    AI

E-Constat

- Mobile app to create standardized vehicle accident reports and submit them directly to insurers. Includes a guided step-by-step flow, GPS location, photo capture with annotations, and secure claim submission.

Flutter    REST APIs

Clinic Management System

- A web application to manage patient records, appointments, and clinic operations efficiently. Built with a focus on usability and streamlined workflows.
